

Hydro.Blast

A powerful irrigation and water system cleanser

DILUTION RATES

For cleaning heavily soiled irrigation lines with biofilms use 1,000ppm
(1 lt Hydro.Blast per 1,000 lt water)

For continuous dosing into irrigation systems use 25-100ppm
(0.0025%-0.01% Hydro.Blast to water)

For the cleaning of water storage tanks use 150ppm
(0.15 lt Hydro.Blast per 1,000 lt water)
